WORK EXPERIENCE

IdeaWP- Front-end developer   Nov 2024 - Present

Developed **11+ scalable and responsive web applications** using **React.js**, including the company's product website and product front-end interfaces, focusing on performance, reusable components, and user-centric design while collaborating with cross-functional teams.

IdeaWP- Frontend developer (Intern)   Sept 2024 - Oct 2024

Worked as a **Front-End Web Developer Intern**, building and maintaining responsive web interfaces using **HTML, CSS, and JavaScript**, collaborating with senior developers, fixing UI issues, and using **Git** for version control.

PROJECTS

Chat AI+ – AI-Powered Chat Application   Link

Developed a real-time AI chat application using **React** with secure user authentication via **Firebase (Email/Password and Google Sign-In)**. Integrated an external AI service through backend APIs to generate fast, context-aware responses, focusing on smooth user interaction and responsive UI design.

AI-Powered SEO Analyzer – Chrome Extensiond

Developed a **Chrome extension** that extracts website HTML and sends it to a **Node.js/Express API** for AI-based SEO analysis, generating actionable reports on missing SEO elements and content improvements. Deployed the backend on **Render** using environment-based API configuration, built as a scalable MVP.

KeepSter   Link

Full-Stack Note-Taking Web App Built a full-stack note-taking application using **React and Firebase** with secure authentication, real-time data storage, and a rich-text editor for creating and managing notes through a responsive UI.
